The Patient Driven Payment Model (PDPM) is changing healthcare services for Skilled Nursing Facilities (SNFs) but providers have many opportunities available. Delta Healthcare Providers (DHP) works with hundreds of facilities nationwide on your behalf to find the right fit for your preferred setting type and skill set.

The PDPM is a new payment system for skilled nursing facilities that's designed to:

- Streamline patient care and deliver personalized therapy services
- Replace the current Resource Utilization Group, Version IV (RUG-IV)
- Save SNFs \$2 billion
- Reduce administrative requirements
- Enhance collaboration and group therapy
- Decrease therapy utilization and over billing

But with all the changes, provider jobs have been impacted.

Under the PDPM, thousands of therapists around the nation have seen a reduction in work hours — or have lost their jobs completely. Others are dissatisfied with their new role or feel stressed about pay adjustments and job longevity.

DHP is here to help!

Here are 6 ways we guide providers to successfully navigate their careers:

1. **You have choices.** Our providers have the option to work in many settings, including those not impacted by PDPM.
2. **85 percent of assignments placed outside of SNFs.** We have built our reputation and business by partnering with Hospitals and Outpatient clinics across the nation.
3. **Locked in hours.** All contracted hours are guaranteed so you can count on the work.
4. **Network of facilities.** We look ahead to prepare providers about the therapy changes that may affect them. TDC providers currently working in SNF's haven't been adversely impacted by the PDPM changes because we work with facilities that were already equipped for the changes.
5. **Placement longevity.** Try a new setting/location for 13 weeks to gain new experience. Move to the next one, or extend your stay.
6. **Multi-state licensing available.** DHP has a dedicated licensing team that will walk you through the process of obtaining the IMLPTC, which allows therapists an expedited pathway to obtaining a therapy license in another state.
